Vozlišča podobe in zvoka, od roba v središče pogleda

Četrto izdajo mednaravnega festivala eksperimentalnih avdiovizualnih praks *V-F-X Ljubljana* odpiramo z domačim celovečerjem ***Ne misli, da bo kdaj mimo: 25. 4.–26. 1. Tomaža Groma***, ki je na lanskem *Festivalu slovenskega filma* prejel vesno za najboljši film. Odločitev strokovne žirije, ki je bila v nekaterih medijih označena za »radikalno«, nas navduhuje z optimizmom, saj se zdi, da nakazuje bolj ozaveščen pogled, naklonjen razumevanju filmskih praks v vsej njihovi potencialnosti. Film, ki je lani v Slovenski kinoteki doživel premiero, bo režiser ponovno pospremil z glasbeno spremljavo v živo.

V duhu performativne enkratnosti vsake filmske predstave bomo skozi različne programske segmente raziskovali razmerje med vizualno in zvočno filmsko podobo kot tudi potencialnost performativnih praks v povezavi z avdiovizualnimi umetniškimi izrazi. Tako festivalu priključujemo tradicionalni kinotečni cikel žive zvočne spremljave nemih filmov *Kino-aho*, v katerem predstavljamo temačno opojen univerzum domačega pionirja filmske eksperimentale ***Vaska Preglja***. Program kratkih filmov, ki so do nedavnega veljali za izgubljene, bo z nastopom v živo pospremil uveljavljeni akter slovenske elektronske in klubske glasbene scene ***Tine Vrabič – Nitz***.

Performativne geste na preseku filma, videa, igričarstva in anagažirane tehnofilozofije predstavlja delo dunajskega kolektiva ***Total Refusal***, ki se bo predstavil z retrospektivo in predavanjem-performansom v sodelovanju z umetnostno zgodovinarjem ***Valentino Tanni***.

Že ustaljeno programsko sekcijo ***Razgledi***, ki prinaša eklektičen nabor odmevnješih naslovov iz mednarodne scene, tokrat spremljata pregledna sklopa sodobnega afriškega videa ***Hiša utemeljenih resnic***, ki ga je kuriral togovsko-francoski kurator ***Kisito Assangni***, in retrospektiva romunskega eksperimental-

nega filma ***Naravni vzroki?***, ki ga je pripravil **Călin Boto**, kurator, ki sodeluje z Mednarodnim festivalom eksperimentalnega filma iz Bukarešte. Na V-F-X Ljubljana smo v okviru Baze slovenskih filmov že prikazali filmsko produkcijo študentk_ov ljubljanskih UL ALUO, UL AGRFT, Akademije za vizualne umetnosti AVA in novogoriške Akademije umetnosti, letošnja novost pa je, da bo študentski program ***Brobotanja***, kuriran izbor novejše produkcije, prikazan v dvorani Slovenske kinoteke. Program dokazuje, da tudi pri nas nastajajo dobri študentski eksperimentalni filmi, ki jim festival ponuja potrebno platformo, da se prikažejo javnosti.

Filmskemu programu se priključuje tudi spremljevalni program z VR točko ***Immortelle*** v kavarni Kinoteke, delavnico ***Magični svet analognega filma*** pod mentorstvom vizualne umetnice **Neže Knez** in v sodelovanju s **Klubvizijo** iz Zagreba, vprašanju ustvarjanja z analognim v okolju digitalne sodobnosti pa se bo posvetila okrogla miza ***Temna stran analognega filma: neodvisni laboratoriji***. Festival sklepamo v Kinu Šiška, kjer se bomo potopili v intermedijski performans francoske glasbenice **Amélie Nilles**. Večkanalna zvočna hibridna izkušnja je zasnovana kot celostna potopitvena izkušnja v »vrt zvokov«, rahlo ekscentrično eksperimentalno zvočno vesolje.

Festivalska ekipa

The Nodes of Image and Sound, from the Edge into the Centre of the Gaze

We will open the fourth edition of the International Festival of Experimental Audiovisual Practices V-F-X *Ljubljana* with the Slovenian feature-length film ***Don't Think It Will Ever Pass: 25. 4.-26. 1.*** by **Tomaž Grom**, which won the Vesna Award for Best Film at last year's *Festival of Slovenian Film*. The decision of the expert jury, which, in some media, was characterised as "radical", fills us with optimism, for it seems it indicates a more informed view inclined to understanding film practices in all their potentiality. The film, which premiered last year at the Slovenian Cinematheque, will again be accompanied live by its director.

In the spirit of the performance uniqueness of every film show, various programme segments of the festival will examine the relation between film image and sound and the potentiality of performance practices in relation to audiovisual art expressions. We have thus joined forces with *Kino-aho*, the Slovenian Cinematheque's traditional cycle of silent films with live musical accompaniment, and present a darkly intoxicating universe of **Vasko Pregelj**, a Slovenian pioneer of experimental cinema. The programme of his short films, which had been considered lost until recently, will be accompanied live by **Tine Vrabič – Nitz**, an established name on the Slovenian electronic and club music scene.

Performative gestures on the intersection of film, video, gaming and engaged technophilosophy are involved in the work of the Vienna collective **Total Refusal**, which will be presented with a retrospective and a lecture performance in cooperation with art historian **Valentina Tanni**.

This year, the already established programme section **Vistas**, which brings an eclectic selection of the most resounding titles of the international scene, is accompanied by two survey secti-

ons: ***House of Reasoned Truths***, an overview of recent African video art curated by **Kisito Assangni**, a Togolese-French curator, and ***Natural Causes?***, a retrospective of Romanian experimental cinema, prepared by **Călin Boto**, the associate curator of the Bucharest International Experimental Film Festival. V-F-X Ljubljana has already screened the film productions of students from UN ALUO, UN AGRFT and AVA – Academy of Visual Arts in Ljubljana, as well as the Academy of Arts in Nova Gorica, within the framework of the Slovenian Film Database (BSF). This year, the student programme ***What's Cooking?***, a curated selection of recent student productions, will be screened in the Slovenian Cinematheque Hall for the first time. Student programme proves that good experimental student films are made in Slovenia too and the festival provides them with the required platform enabling them to be shown to the public.

The film programme will be accompanied by the VR point ***Immortelle*** at the Cinematheque's café, the workshop ***The Magical World of Analogue Film*** under the mentorship of visual artist **Neža Knez** and in cooperation with **Klubvizija** from Zagreb and the round table ***The Dark Side of Analogue Film: Independent Labs***, which will address the question of creating with the analogue in the environment of the digital present. The festival will conclude at Kino Šiška, where we will immerse in an intermedial performance by French musician **Amélie Nilles**. The hybrid multichannel sound experience has been conceived as an experience of a total immersion into a "garden of sounds", a slightly eccentric experimental sound universe.

**NE MISLI, DA BO KDAJ MIMO: 25. 4.–26. 1.
DON'T THINK IT WILL EVER PASS:
25. 4.–26. 1.**

Tomaž Grom, SI, 2023, 75'

Eksperimentalni celovečerni dokumentarec priznanega glasbenika in glasbenega producenta Tomaža Groma o žalovanju in vsakodnevnom soočanju z bolečo izgubo sina. Film je lani prejel glavno nagrado, vesno za najboljši celovečer na Festivalu slovenskega filma. Prvič v zgodovini festivala je glavna nagrada pripadla eksperimentalnemu filmu.

»Značilnost kinodvoran je, da so zvočniki na stenah in je nemogoče vplivati na vsakega posebej, ampak zgolj na vse, ki so na levi, ali vse, ki so na desni. In ker so si tako blizu, to ni idealno. Za glasbeno spremljavo projekcije filma *Ne misli, da bo kdaj mimo: 25. 4.–26. 1.* sem postavil svoj sistem, na povsem drugačen način, po drugih kotih, po tleh, spredaj, zadaj ...«

Glasbena spremjava v živo: Tomaž Grom.

■ An experimental feature-length documentary by the acknowledged musician and music producer Tomaž Grom on mourning and his daily confrontation with the painful loss of his son. Last year, it won the Vesna Award for Best Film at the Festival of Slovenian Film. It was the first time in the festival's history that the main award went to an experimental film.

"Cinemas typically have speakers on the walls and it's impossible to affect each individually, you can only affect all the speakers that are on the left or all that are on the right. And because they're so close together, that's not ideal. For the accompaniment to the screening of *Don't Think It Will Ever Pass*: 25. 4.–26. 1, I set up my own system in a completely different way, in the corners, on the floor, in the front, at the back..."

Live musical accompaniment: Tomaž Grom.

ABSTRAKCIJA ČUSTVA / APSTRAKCIJA EMOCIJE / ABSTRACTION OF EMOTION

Ksenija Todorović (UL ALUO), SI,
2023, 1'50", bd

Cilj filma je, da z zvokom in oblikami, ki se dinamično spreminjajo in imajo različno energijo, hitrost gibanja, gibov in barve, izzove čustveno reakcijo gledalcev. S svojo nedefiniranostjo omogoča, da gledalci občutijo dogodek pred sabo skozi lastno prizmo, zaradi česar je vsaka projekcija zasebna stvaritev, odvisna od osebne percepциje.

The film's goal is to elicit the viewer's emotional reaction with sound and forms that dynamically change and differ in their energy and the speed of motion, movements and colour. With its indefiniteness, the film enables the viewers to experience the event in front of them from their own viewpoint, which makes each screening a private creation dependent on personal perception.

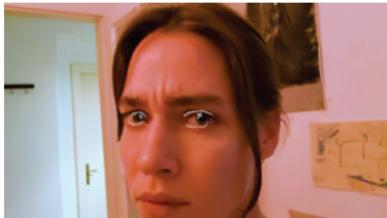

MEANING EXPERIMENTAL

Milena Brkić (AU UNG), SI, 2022,
7'50", svp

Film v filmu, ki izziva občinstvo in pravo občinstvo, da bi spraševali ali ne, kaj je pred njimi.

A film within a film, which challenges the audience and the real audience to ask or not what is before them.

GENERACIJA Z / GENERATION Z **Mia Zigmund** (AVA), SI, 2022, 2'12", bd

Kaj se zgodi, ko se generalna objektivizacija ženske preseli v domeno socialnih omrežij, kjer se ženske same izpostavijo kot seksualni objekt? Generacija Z, rojena med letoma 1995 in 2010, svoj potencial v veliki meri vrednoti skozi prizmo socialnih omrežij, kjer se pridobitev statusa meri z všečki, delitvami in komentarji objav. Protagonistka Nina na šaljiv način »kapitalizira« svoj videz z vsakodnevnimi opravili.

■ What happens when the general objectification of women moves to the domain of social networks, where women themselves foreground themselves as sexual objects? Generation Z, born between 1995 and 2010, assesses its potential largely from the viewpoint of social networks, where one's status is measured by likes, shares and comments under one's posts. In a humorous way, the protagonist Nina "capitalises" on her looks through everyday chores.

3, 4, ZDAJ / READY, STEADY, GO **Spela Ambrož** (UL ALUO), SI, 2023, 1', bd

Kaj žene človeka v novo osebno ero? Bolj kot s konkretnimi dogodki se avtorica ukvarja s skorajda neprepoznavnimi podobami, ki se z zvočno podlago postavijo na mesto doživljanja. Posamezne dele obdobjij ločujejo temni vzdihlaji cenzure in film vzpostavlja kot celovito estetsko izkušnjo.

■ What drives one into a new personal era? The filmmaker deals less with concrete events and more with almost unrecognisable images, which, together with the sound background, occupy the place of experiencing. Individual parts of the periods are separated by dark sighs of censorship, establishing the film as an integral aesthetic experience.

sedbe Pink Floyd *The Dark Side

1973. Avtor poskuša razumeti duh
časa, tok obdobja, ko je bilo delo
ustvarjeno, ter tega vizualno pre-
nesti v sedanji čas. Nastali izdelek
je zgolj iteracija, nekakšen vidni
povzetek nečesa, kar si predstav-

resnice človeškega obstoja«.

■ A consecutive visualisation

filmmaker tries to understand the
spirit of the time, the unfolding of
the period in which the work was
created, and to visually transfer it
to the present time. The resulting
product is merely an iteration, a
sort of visual recap of something
that he imagines as an "inner jour-

Kaj pomenijo pojmi, kot so transformacija, identiteta, norost, obsesija, samozdravljenje? Sposobnost vpogleda v duševno stanje je prirojena oz. naravna sposobnost našega bitja in je povod za trajnostne spremembe na ravni prepričanja, doživljjanja in odločanja v vseh življenjskih situacijah.

Animirana, absurdna polna komedija, v kateri nastopi Vera, neopazna gospodinja, ki uživa v peki tort. Ima skrivnost, ki jo skrbno varuje z nasmeškom. Njen mož je precej nenavaden gospod, limona – vsaj tako se zdi. Ko sonce zaide in se udobna hiša napolni z omamnim vonjem torte, Vera pripravi nenavaden večer.

TOTAL REFUSAL & VALENTINA TANNI LET'S PLAY: BREXIT REALITY

Performativno predavanje / Performative Lecture

Umetnostna zgodovinarka Valentina Tanni in marksistična medijska gverila Total Refusal se srečata v Londonu ob igranju igre *Watch Dogs Legion*. Predavanje-performans se bo osredotočilo na prihajajočo knjigo Valentine Tanni *Exit Reality*, v kateri raziskuje svet, nasičen s halucinatorynimi lastnostmi, ki vznika kot vzporedni planet iz galaksij kodnega prostora. Medtem ko hodijo, se peljejo in letijo skozi digitalno mesto, razpravljajo o osrednjem argumentu knjige, pri čemer se navezujejo na videz Londona v igri. Mesto, ki je tako nedomačno kot domačno, ni le ilustracija tehnokapitalistične nočne more, pač pa tudi divje igrišče za hekerje in igričarje.

V sodelovanju z Zavodom za sodobne umetnosti Aksioma. Brezplačne vstopnice bodo na voljo na dan predavanja.

■ Art historian Valentina Tanni and the Marxist media guerilla Total Refusal meet in the city of London by playing the game *Watch Dogs Legion*. The lecture performance will centre on Valentina Tanni's upcoming book, *Exit Reality*. Tanni's book explores a world saturated with hallucinatory qualities, emerging like a parallel planet from the galaxies of codespace. Walking, driving and flying through the digital city, they discuss the book's central argument with reference to London's appearance in the game. The city, as uncanny as it is familiar, is not only an illustration of a techno-capitalist nightmare, but also a wild playground for hackers and gamers.

In collaboration with Aksioma – Institute for Contemporary Art. Free tickets will be available on the day of the lecture.

O AVTORJIH / ABOUT THE AUTHORS

Psevdomarksistična medijska gverila **Total Refusal** raziskuje in prakticira strategije umetniške intervencije v sodobnih računalniških igrah. Uporablja orodja za prizvajanje igralnih virov. TOTAL REFUSAL RETROSPEKTIVA / RETROSPECTIVE

Total Refusal zase pravijo, da so psevdomarksistična medijska gverila, ki kritizira in apropiira sodobne videoigre. Toda ker se pri večini mainstreamovskih naracij v igrah uporablajo enake neskončne zanke reakcionarnih tropov, tej zvrsti večinoma ne uspeva, da bi vrednote igralcev postavila pred preizkušnjo, in namesto tega potrjuje hegemoniske moralne koncepte. Ker kolektiv prepoznavata, da ta medij trenutno ne udejanja svojega kulturnega potenciala, si prizadeva apropiirati digitalne prostore iger in jih uporabiti na novo. S premikanjem znotraj iger, a opuščanjem predvidenega načina igranja te vire dodeli novim dejavnostim in naracijam, pri čemer poskuša ustvariti »javne« prostore s kritičnim potencialom.

V sodelovanju z Avstrijskim kulturnim forumom Ljubljana. Projekcija v prisotnosti avtorjev.

■ Total Refusal describe themselves as a pseudo-Marxist media guerrilla that criticizes and artistically appropriates contemporary video games. However, as most mainstream game narratives employ the same infinite loops of reactionary tropes, the genre largely fails to challenge the values of their players and instead affirms hegemonic moral concepts. Acknowledging that this media is currently not realizing its cultural potential, the collective aims to appropriate digital game spaces and put them to new use. Moving within games but casting aside the intended gameplay, we rededicate these resources to new activities and narratives, looking to create "public" spaces with a critical potential.

In collaboration with the Austrian Cultural Forum Ljubljana. Screening in the presence of the filmmakers.

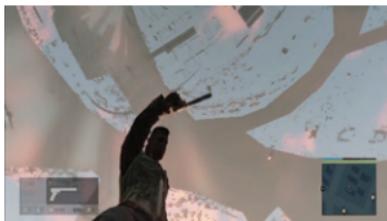

SUPERWONDER

Total Refusal, AT, 2021, 4'33", ap

Izhodišče je opazovanje digitalnih svetov v trenutnih igralnih okoljih odprtrega sveta, ki svoje kozmose konstruirajo kot predaristotelske kroge. V *Superwonder* se avatarji namenijo prodreti skozi domnevno neskončnost univerzuma, ki jih obdaja. Tako postane vidna konstruiranost digitalnega svoda in se razprejo stične točke med izkušnjami sveta v pozнем kapitalizmu, teorijah zarot in romantizmu.

■ The starting point is the observation of digital worlds in current open-world engines spread out their cosms on pre-aristotelian discs. In *Superwonder*, avatars set out to penetrate the supposed infinity of the universe surrounding him. So the constructedness of the digital firmament becomes visible and points of contact between late capitalist, conspiracy theorist and romanticist world experience open up.

FEATHERFALL

Total Refusal, AT, 2019, 10'21", svp

Videoinstalacija *Featherfall* temelji na raziskavi spletnih forumov, na katerih si igričarji pripovedujejo o svojih sanjah. *Featherfall* se sklada z arhetipsko nočno moro »padanja«, ki se pogosto pojavlja med puberteto. Padanje brez pristanka v ighrah obstaja v obliki ponavljajoče se programske napake – *glitcha*, prek katerega avatar pada pod površino v prazen, neprogramiran prostor. Napaka kot digitalna nočna mora.

■ The video installation *Featherfall* is based on research in online forums in which video players exchange their dream experiences. *Featherfall* ties in with the archetypal nightmare of "falling down", which often occurs during puberty. Falling without ever landing exists in video games in the form of a recurring programming error – a glitch – through which the avatar falls beneath the surface into the empty, non-programmed space. The glitch as a digital nightmare.

OPERATION JANE WALK

Robin Klengel, Leonhard Müllner,
AT, 2018, 16'14", svp

Operation Jane Walk temelji na distopični večigralski strelski igri *Tom Clancy's: The Division*. Militaristično okolje je znotraj pravil programja igre na novo uporabljeno za pacifističen ogled mesta. Urbani flanerji se izogibajo spopadom in postanejo miroljubni turisti digitalnega sveta, ki je podrobna replika Midtown Manhattna. Med sprehodom po postapokaliptičnem mestu poteka razprava o vprašanjih, kot sta arhitekturna zgodovina in urbanizem.

■ *Operation Jane Walk* is based on the dystopian multiplayer shooter *Tom Clancy's: The Division*. Within the rules of the game's software, the militaristic environment is being reused for a pacifistic city tour. The urban flâneurs avoid the combats and become peaceful tourists of a digital world, which is a detailed replica of Midtown Manhattan. While walking through the post-apocalyptic city, issues such as architecture history and urbanism are discussed.

HOW TO DISAPPEAR

Total Refusal, AT, 2020, 20'21", svp

Protivojni film v pravem pomenu besede, saj išče možnosti za mir tam, kjer bi ga najmanj pričakovali – v spletni vojni igri. To je poklon nepokorščini in deserterstvu, tako pri digitalnem kot resničnem fizičnem bojevanju.

■ An anti-war movie in the true sense of the word, *How to Disappear* searches for possibilities of peace in the most unlikely place of an online war game. It's a tribute to disobedience and desertion - in both digital and physical-real warfare.

HARDLY WORKING

Total Refusal, AT, 2022, 20'34", svp

Neigralni liki so digitalni sizifovski stroji, ki si ne morejo obetati izstopa iz zank svojih dejavnosti. V trenutkih, ko algoritem pokaže nekonsistentnosti, neigralni liki izstopijo iz logike popolne normalnosti; zazdijo se ganljivo človeški.

■ NPCs are digital Sisyphus machines that have no perspective of breaking out of their activity loops. In the moments when the algorithm shows inconsistencies, the NPCs break out of the logic of total normality, and appear touchingly human.

KINDERFILM

Total Refusal, AT, 2023, 11'35", svp

Običajen dan v igri *Grand Theft Auto V*: ceste so polne avtov; ljudje sledijo svojim rutinam, pečejo na žaru na vrtu ali se sončijo na plaži. Vendar pa svet igre zaznamuje resna odsotnost – manjkajoča prihodnost, ki je bila suspendirana zaradi varnostnih pomislekov. Protagonist Edgar gre po sledeh tega, kar manjka v algoritmu njegove realnosti. Ko raziskuje nedomačnost svoje normalnosti, ponovno odkrije lep, vendar morast svet.

■ It's an ordinary day in the game *Grand Theft Auto V*: The streets are crowded with cars; people follow their routines, barbecue in their gardens or sunbath on the beach. And yet the game world is marked by a grave absence: a missing future that was suspended out of safety concerns. Protagonist Edgar follows the traces of what is missing in the algorithm of his reality. Exploring the uncanniness of his normality, he rediscovers a beautiful yet nightmarish world.

JAMSKA SVETLOBA / HÖHLENLICHT / CAVELIGHT

Mirjam Baker, AT/DE, 2023, 9'35",
nemi/silent, bd

Pet tisoč štiristo trintrideset posameznih fotografskih podob potisne oko v stanje delirične prenasičenosti. Stožce, kot so tisti v stalaktitni jami, v dinamični vrtinec potegne nevihta svetlobnih sprememb in premikov kamere. Rezultat je skulpturen prostorski učinek, ki ni niti abstrakten niti konkreten.

■ 5433 individual photographic images plunge the eye into a state of delirious overload. Cones, like those in a stalactite cave, are drawn into a dynamic maelstrom by a storm of light changes and camera movement. The result is a sculptural spatial effect that is neither abstract nor concrete.

HIŠA UTEMELJENIH RESNIC. PROGRAM SODOBNEGA AFRIŠKEGA VIDEA **HOUSE OF REASONED TRUTHS. RECENT VIDEO ART FROM AFRICA**

Kurator / Curator: Kisito Assangni

Tehnološki napredek in medkulturnost sta spremenila sodobno afriško umetnost in na njeni cvetoči sceni pripeljala široko paletu novih izraznih oblik skupaj z novimi pogledi na kulturo in družbo. Program *Hiša utemeljenih resnic*, ki posebno pozornost posveča sodobni video umetnosti, črpa iz vitalnosti tega nedavnega dela ter prikaže njegovo estetiko in široko paletu formalnih strategij, medtem ko se posebej osredotoča na njegovo zmožnost, da se loti izzivov sodobnega življenja v dobi globalizacije. Predstavljene umetnice_ki prihajajo z vsega kontinenta. Delajo refleksivno, pri čemer uporabljajo konvencije svojih družbenih svetov, da bi razmislili o njih in njihovih protislovjih. Obravnavajo vprašanja skupnosti, družbene kohezije, feminizma, diasporске subjektivitete, geopolitike, okoljskih sil, performativnosti in oblasti ter tako sprožijo refleksijo o Afriki in svetu danes, onkraj zgodovinsko reductivnih klasifikacij.

Program bo uvedel kurator Kisito Assangni.

■ Technological advancement and interculturalism have transformed contemporary African art, introducing a broad range of new forms of expression along with new perspectives on culture and society to Africa's thriving art scene. With particular attention to contemporary video art, *House of Reasoned Truths* taps into the vitality of this recent work, capturing its aesthetics and broad range of formal strategies, while focusing specifically on its capacity to address the challenges of modern life in an era of globalization. The artists in this show come from across the continent. They work reflexively, using the conventions on their respective social worlds to meditate on them and their contradictions. They speak to questions of community, social cohesion, feminism, diasporic subjectivity, geopolitics, environmental forces, performativity, and power – provoking reflection on Africa and the world today, beyond historically reductive classifications.

The programme will be introduced by curator Kisito Assangni.

ZLATI LIST / FEUILLE D'OR / GOLD LEAF

Kolonija, imperij, arhiv, ogromne zbirke fotografij nemočnih na spletu, po katerih je mogoče iskati in jih kupiti. Se je kaj spremenilo, odkar so jih posneli? Ritem glasu sprašuje in zapeljuje, plamen, ki na kratko razkriva surovo zgodovino, nas poveže z lepljivo mrežo primitivizma, ki prežema zahodno kulturo, ne da bi se sploh dotaknil podobe. Poskušamo se spomniti in ponovno pomniti drugačno zgodovino, ki je še vedno ujeta v sencah tega časa.

■ The colony, the empire, the archive, the vast collections of photographs of the disempowered, on the web, searchable and up for purchase. Has much changed since they were taken? The rhythm of the voice questions and seduces, the flame, briefly revealing a brutal history, connects us to the sticky web of primitivism that saturates Western culture, without ever touching the image. We are trying to remember and re-member a different history.

MODRA MATERNICA /

BLUE WOMB

Cesar Schofield Cardoso, CV,
2023, 8', bd

Zelenortski otoki so v zapletenem odnosu z okoliškim oceanom, uradno štirinajstkrat večjim od njihovega kopnega. Stoletja ženjstva, zgodovina napornih de-lovnih praks na kitolovskih ladjah, prisilne migracije – do sedanjega pomanjkanja rib zaradi pretiranega tujega industrijskega lova in podnebnih sprememb, kar nam onemogoča dostop do našega oceanskega državljanstva. Kako si torej ponovno predstavljati življenje z oceanom?

■ Cabo Verde endures a complex relationship with its surrounding ocean, officially fourteen times greater than its land territory. Centuries of slavery, a history of gruelling labour practices on whaling ships, forced migration, to the present scarcity of fish due to foreign industrial overfishing, and climate change deny us access to our oceanic citizenship. As such, how could we re-imagine life with the ocean?

POGAJANJA II / NEGOTIATIONS II

Anna Binta Diallo, SN, 2013, 6'06",
bd

Kako uskladiti različne in včasih nasprotujoče si dediščine? Ali lahko hrepenimo po krajih, ki jih nikoli nismo poznali? Kako si ponovno prisvojimo del kulturne dediščine, katere prenos je bil prekinjen? Videotriptih združuje družinske arhive in videoodломke z interneta, nenehno in izmenično postavlja nasproti gibljive slike njene družine, Senegala, države njenega rojstva, in kanadskih prerij, kjer je odraščala.

■ How do we reconcile different and sometimes conflicting legacies? Can we long for places we have never known? How do we re-appropriate part of a cultural heritage whose transmission has been interrupted? Combining family archives and video excerpts from the Internet, this video triptych continuously and alternately juxtaposes moving images of her family, Senegal, the country of her birth, and the Canadian Prairies, where she was raised.

POTRES / QUAKE

Razmislek o sodobni geopolitički, še posebej o svetu, ki obstaja v apokaliptičnem načinu. Poleg priповedi o nemirih, ki se prenašajo od starodavnih mitologij prek sodobne popularne znanstvene fantastike do prikazovanja in izraza globalnih novic, želi ohraniti prvotni občutek apokalipse kot »dviganja tančice« – diskurza razzodetja.

■ A reflection on contemporary geopolitics, in particular on the world existing in an apocalyptic mode. Besides the narratives of tumult handed on from ancient mythologies through contemporary popular science fiction to the portrayals and posturings of global news, I wanted to retain the original sense of an apocalypse as a "lifting of the veil" – a discourse of revelation.

KAMNITA OPERA /

THE STONE OPERA

Haythem Zakaria, TN, 2022, 15'47",
ap, svp

Kako gledati krajino in kako o njej pripovedovati? *Kamnita opera* skuša odgovoriti v kontinuiteti raziskovanja med prostorov. To pluralno delo je sestavljeno hkrati kot glasbeno delo, vizualni eksperiment in zvočni dokumentarec v poskušu totalizacije žanrov, vendar ne trdi, da je izčrpano. Sledi pogledu, ki brez želje po osvajjanju odkriva okolico mesta Redeyef, začenši z vrha njegovih gorskih masivov.

■ How to look at the landscape and how to recount it? *The Stone Opera* attempts an answer in the continuity of the investigations of Interstices. This plural work is composed at the same time as a musical piece, a visual experiment, and a sound documentary in an attempt to totalize the genres, without, however, claiming to be exhaustive. The work follows a look that discovers, without the desire of conquest, the surroundings of the town of Redeyef, starting from the top of its mountain massifs.

O AVTORJIH / ABOUT THE AUTHORS

Halida Boughriet (Alžirija) je diplomirala iz filmske fotografije na Ecole Nationale Supérieure des Beaux-Arts v Parizu in zaključila program izmenjave na SVA v New Yorku. Raziskuje širok razpon medijev, v središče svojega umetniškega izraza pa postavlja performans, in sicer prek različnih elementov, referenc in orodij. Vseprisotnost človeških teles je bistven vidik njenega petičnega/eksperimentalnega dela. Njena dela so bila razstavljena v nekaj institucijah, kot so Muzej moderne umetnosti v Alžiru; Hood Museum v Hanovru v ZDA; Centre Pompidou, MAC/VAL Museum, Institut du Monde Arabe v Parizu in Haus der Kulturen der Welt v Berlinu, ter na Documenta in dakarskem bienalu.

Cesar Schofield Cardoso (Zelenortske otok) je fotograf, videast in razvijalec programske opreme. V svojem delu se ukvarja z zgodovino, spominom, politiko in vsakdanjim življenjem, pri čemer si prizadeva zapopasti kompleksno dinamiko, ki zaznamuje pogoje in možnosti Zelenortskeh otokov, njegovega rojstnega kraja v srcu Atlantika. Cardosovo delo je bilo prikazano v različnih kontekstih, kot so beneški bienale, bienale S. Tomé e Príncipe; Apexart v New Yorku; Center za umetniško raziskovanje Hangar v Lizboni; Es Baluard Museu d'Art Contemporani de Palma v Španiji in La Base sous-marine v Bordeauxu.

Anna Binta Diallo (Senegal) je multidisciplinarna vizualna umetnica, ki raziskuje spomin in nostalgijo, da bi ustvarila nepričakovane pripovedi o identiteti. Diplomirala je iz likovne umetnosti na Fakulteti za likovne umetnosti Univerze v Manitobi (2006), magistrirala pa na Transart Institute v Berlinu (2013). Njeno delo je bilo prikazano v mednarodnem prostoru, med drugim na razstavah v The McMaster Museum of Art v Ontariu; Muzeju sodobne umetnosti v Tajpeju; BOZAR v Bruslju; Savvy Contemporary v Berlinu; na Biennale de l'image v Montrealu in na dakarskem bienalu. Anna Binta Diallo je profesorica na Fakulteti za likovne umetnosti Univerze v Manitobi.

Abdoul-Ganiou Dermani (Togo) je končal umetniško šolo v Kpaliméju. Njegova praksa vključuje slikarstvo, mešane medije, video in fotografijo. V svojih delih se ukvarja z afriškimi identitetami in družbenimi vprašanji. Sodeloval je na pomembnih razstavah na beneškem in havanskem bienalu, v Centru za digitalno umetnost v Los Angelesu; Bortolami Gallery v New Yorku; ZKM Museum v Karlsruhe; Muzeju Pera v Istanbulu in Muzeju CICA v Gimpu v Južni Koreji.

Minnette Vári (Južna Afrika) živi v Johannesburgu. Njeno delo prepleta sebstvo in zgodovino, pri čemer raziskuje, kako identiteta vznikne iz travmatične preteklosti. V svojih videih in risbah pogosto prikazuje svoje telo, ki prestaja iznakanjočo metamorfozo – spoji se z naravo in betonsko arhitekturo modernih mest in vznikne iz njiju. »Protagonistka« njenih videov je včasih arhetipska, včasih pa fantomska, je persona, ki vsrka čas, ta pa njo. Minnette Vári razstavlja svoje delo že od zgodnjih 90. let prejšnjega stoletja, pri čemer je sodelovala pri skupinskih razstavah, kot so *Banquet* v ZKM Karlsruhe; *Personal Affects: Power and Poetics in Contemporary South African Art* v Muzeju za afriško umetnost v New Yorku; beneški bienale (2001 in 2007); 10. havanski bienale in *The Divine Comedy: Heaven, Hell and Purgatory Revisited by Contemporary African Artists* v MKK Frankfurt.

Haythem Zakaria (Tunizija) je hodil na Šolo za likovno umetnost v Tunisu. V svojih vizualnih delih, ki jih večinoma prežema sufiska duhovnost, uporablja nekonvencionalne vizualne tehnike (glitche, metapodobe, filmske procese), ki ga vodijo in vpletajo v eksperimentiranje z matričnimi in protokolnimi napravami. Tako raziskuje metode, katerih cilj je »pretirana produkcija« podobe prek integriranja, cepljenja in združevanja vizualnih ali zvočnih informacij. Njegova dela so med drugim gostili Fondation Hippocrène v Parizu; Centre Wallonie Bruxelles v Parizu; Halle 14 v Leipzigu; Japan Media Arts Festival v Tokiu; Kamel Lazzar Foundation v Tunisu in Goodman Gallery v Johannesburgu.

■ **Minnette Vári** (South Africa) lives in Johannesburg. Her work conflates self and history, examining how identity arises out of the traumatic past. In her videos and drawings, Vári frequently depicts her own body enduring a disfiguring metamorphosis – she merges with and emerges from nature as well as from the concrete architecture of modern cities. The female "protagonist" of her video works is sometimes archetypal and sometimes spectral, a persona who ingests and is ingested by time. Vári has exhibited her work since the early nineties, participating in such group exhibitions as *Banquet*, ZKM Karlsruhe; *Personal Affects: Power and Poetics in Contemporary South African Art*, Museum for African Art, New York; the Venice Biennale (2001 and 2007); the 10th Havana Biennale and *The Divine Comedy: Heaven, Hell and Purgatory Revisited by Contemporary African Artists*, MKK Frankfurt.

■ **Haythem Zakaria** (Tunisia) attended the Fine Arts School of Tunis. His visual creations, largely imbued with Sufi spirituality, use unconventional visual techniques (glitch, meta-image, cine process) that guide him and involve him in the experimentation with matrix and protocol devices. He is thus led to

explore methods aimed at 'over-producing' the image through integration, grafting, and superimposition of visual or sound information. His works have been hosted by Fondation Hippocrène, Paris; Centre Wallonie Bruxelles, Paris; Halle 14, Leipzig; Japan Media Arts Festival, Tokyo; Kamel Lazzar Foundation, Tunis; Goodman Gallery, Johannesburg among others.

VASKO PREGELJ KONSTANTE MINEVANJA THE CONSTANTS OF VANISHING

Projekcijo bo z živo glasbeno spremljavo opremil **Tine Vrabič – Nitz**.

Screening with live music by Tine Vrabič – Nitz.

Vasko Pregelj v drugi polovici šestdesetih let prejšnjega stoletja posnane serijo likovno premišljenih, temačno grotesknih in baročno nadrealističnih eksperimentalnih filmov, v katerih mojstrsko in izvirno prepleta tako ključne tendence prvih zgodovinskih avantgard, usmerjenih v širjenje in raziskovanje formalnih zmožnosti medija, kot tudi za tisti čas absolutno moderne prvine kasnejših avantgard, ki so v filmu brale lirično možnost kar najbolj neposrednega podajanja intimnih čustvenih stanj. Zvok je bil ohranjen in digitaliziran le za dva od petih filmov s programa, zato bo koncept zvočne podlage z živim izvajanjem predstavljal vzorčenje obstoječih posnetkov in njihovo reinterpretacijo v sodobni ambientalni obliki, ki bo poskušala ohraniti glasbeni odtis avtorja.

■ In the second half of the 1960s, Vasko Pregelj made a series of graphically well thought-out, darkly grotesque and baroquely surrealist experimental films, in which he masterfully and originally intertwined both the key tendencies of the first historical avant-gardes, directed towards expanding and researching the formal capacities of the medium, and an element – which was absolutely modern at the time – of later avant-gardes, which saw in film a lyrical possibility of most directly expressing one's intimate emotional states. The sound has been preserved and digitised for only two of the five films in the programme, which is why the concept of the soundtrack and its live performance will present a sampling of the existing recordings and their re-interpretation in contemporary ambient form, which will try to preserve the filmmaker's musical imprint.

NARAVNI VZROKI? RETROSPEKTIVA ROMUNSKEGA EKSPERIMENTALNEGA FILMA NATURAL CAUSES? A RETROSPECTIVE OF ROMANIAN EXPERIMENTAL CINEMA

Kurator / Curator: Călin Boto

Ko kamera enkrat skadrira naravo, slednja »dela na črno« kot kultura, zato ne preseneča, da je bila romunskim filmskim ustvarjalcem, dejavnim v obdobju komunizma, zlasti v njegovi pozni fazi, skupna nekakšna ekološka občutljivost. Zaradi politike, ki je postajala opreznejša glede reprezentacije, se je narava, razumljena kot nekultura, gotovo zdela varna, »naivna« tema. In pogosto tudi ni bila nič drugega kot naivna (*Dinamična pesem*, *Obred za žejo zemlje*), rezultat enostavne, večne strasti do naravnega spektakla, njegovih podob, krajine in spekulativnih naracij. V drugih primerih pa je bila vase zaprt estetski projekt – narava kot podoba in film kot umetnost naravnih pogojev, časa in svetlobe ter telesa in pokrajine (prekleti filmi Wande Mihuleac, *Onesnaževanje* Ioana Pleșa itn.). *Prišel bo dan* je izjemoma prikazal ne le kulturno izkoriščanje narave (delo na perutninski farmi), pač pa tudi samoizkoriščajočo, od-tujujočo kulturo. Retrospektiva *Naravni vzroki?*, ki jo sestavlja osem romunskih kratkih eksperimentalnih filmov, izmed katerih jih je bilo sedem narejenih v obdobju komunizma, se med razmišljjanjem o svojih popolnih razgledih sprašuje o obsmrtnih izkušnjah utopije, filmu in antropocentričnem »napredku«.

Program bo predstavil Călin Boto, ki kot kurator sodeluje z Mednarodnim festivalom eksperimentalnega filma iz Bukarešte BIEFF.

Once framed by the camera, nature moonlights as culture. There's no wonder why a certain ecological sensitivity was common to Romanian filmmakers who were active during communism, especially in its late period. As politics became more wary of representation, nature, understood as no-culture, must've seemed a safe, »naïve« subject. And it was often nothing but naïve (*Dynamic Poem*, *Ritual for the Thirst of the Earth*), made out of the simple, everlasting passion for the natural spectacle, its imagery, scenery, and speculative narratives. Other times it was an aesthetic project, closed within itself: nature as image, and cinema as an art of nature, of time and light and body and landscape (Wanda Mihuleac's maudit films, Ioan Plesh's *Pollution*, etc.). Exceptionally, a film like *A Day Will Come* depicted not only the exploitation of nature by culture (work in a poultry farm), but also a self-destructive, alienating culture: no wonder why this version was banned until 1990. Etc. While enjoying its picture-perfect landscapes, *Natural Causes?*, a retrospective of eight Romanian experimental short films, of which seven were made during communism, asks itself about the near-death experiences of utopia, cinema, and anthropocentric thought.

The programme will be presented by its curator Călin Boto, associate curator of the Bucharest International Experimental Film Festival – BIEFF.

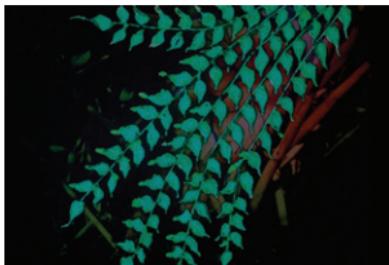

PRIŠEL BO DAN / VA VENI O ZI / A DAY WILL COME

Copel Moscu, RO, 1985–1990,
12'13", ap, svp

Studio Sahia se ponaša z dolgo zgodovino subverzivno alegoričnih filmov. Ko so Copela Moscuja prosili, naj posname dokumentarec o perutninski farmi, ni mogel odvrniti pogleda od sopostavitve naključnega. Leta 1985, ko so ga izdali v drugačni verziji pod naslovom *Dan kot vsak drug*, je bil dokumentarec skrit, končno pa prikazan leta 1990 kot *Prišel bo dan*. Film ponuja srljiv pogled na to, kako so nedavne družbe pridigale pragmatizem in konformizem.

■ The Sahia Studio has a long history of subversively allegorical films. Asked to direct a documentary about a poultry farm, filmmaker Copel Moscu could not look at anything else but the juxtaposition of the haphazard that was waiting to become his film. Hidden in 1985, when released in another version titled *A Day Like Any Other*, and eventually made public in 1990 as *A Day Will Come*, the documentary offers a chilling look at how recent societies preached conformism and pragmatism.

DINAMIČNA PESEM / POEM

DINAMIC / DYNAMIC POEM

Emanuel Tet, RO, 1982, 9'27", bd

Dinamična pesem je eden ikoničnih filmov romunske animacije osemdesetih let prejšnjega stoletja, obdobja prenove in eksperimentiranja. Gre za prikupen, naiven film, ki ni nič manj reminiscanca na status quo, skupna vsem filmom članov kluba kinema ikon, saj ne glede na vsebino oziroma obliko vsebujejo iskren žar domačih filmov, ki občasno pritegne oko. Fant se v gozdu sreča z dekletom: zgoda o strasti, mladosti, skupnosti, ki jo prevzame divja animacija.

■ *Dynamic Poem* is one of the iconic films of the 1980s Romanian animation, which marked a time of renewal and experimentation. It is a sweet, naïve film, no less a reminiscence of the status quo shared by all films made by cinema ikon members – no matter their subject or form, there is a candid home-movie incandescence that, at times, catches the eye. Boy meet girl in a forest: an on-screen story of passion, youth, communion, taken over by wild animation.

PANTA REI

Wanda Mihuleac, RO, 1975, 10'05",
bd

Mojstrovina Wande Mihuleac, ki bi jo lahko uvrstili v žanr počasnega filma, je denaracija legende o Narcisovem odsevu, ki ustvari časovno zanko osebnega in ekološkega mišljenja, kar še okrepi soundtrack filma, skladbo Octaviana Nemescuja *Kombinacije v krogih* (1965), ki je čutna mešanica oteženega dihanja, tekoče vode in predirljivih instrumentalnih zvokov.

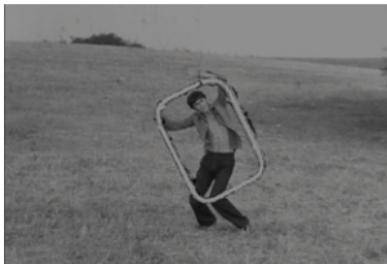

■ Wanda Mihuleac's slow cinema masterpiece de-narrates the legend of Narcissus' self-reflection, creating a time loop of personal and ecological thinking, powerfully intensified by the soundtrack – Octavian Nemescu's *Combinations in Circles* (1965) – a sensorial mix of harsh breaths, flowing water, and piercing instrumental sounds.

OBČUTLJIVOST RASTLIN / SENSIBILITATEA PLANTELOR / **THE SENSITIVITY OF PLANTS**

Mircea Popescu, RO, 1984, 13'09",
ap, svp

V tem nežnem dokumentarju v produkciji dokumentarnega studia Sahia je film posojen znanosti za nenavaden botanični eksperiment. Znanstveniki se vrnejo k prastaremnu vprašanju o tem, ali so rastline resnično zmožne zavestne komunikacije, in preizkušijo njihove reakcije na umetno prisilo in kulturni užitek.

■ This tender documentary, produced by the Sahia Documentary Studio, lends cinema to science for a whimsical botanical experiment. Returning to the age-old question of whether plants are truly capable of conscious communication, the scientists test the vegetal reactions to artificial duress and cultural pleasure.

ONESNAŽEVANJE / POLUARE / POLLUTION

Ioan Pleş, RO, 1977, 5'35", bd

Ioan Pleş, enfant terrible kolektiva kinema ikon iz Arada, ustvari nekakšno izkušnjo igre *Pac-Man*, umešene v podnebno apokalipso. In naj bo še tako muhast, Pleş zahteva resno refleksijo o možnostih filmskega prostora, ki ga širi s skicami in praskami, narisanimi neposredno na filmski trak, ali reducira na njegovo primarno materialnost, celluloid, ki se stopi skupaj z liki, medtem ko se apokalipsa nadaljuje.

■ Ioan Pleş, the enfant terrible of the Arad-based cinema ikon collective, creates a sort of *Pac-Man* experience set during the climate apocalypse. And whimsical as he may be, Pleş demands serious reflection upon the possibilities of cinematic space, which he either extends through the sketches and scratches drawn directly onto the film reel, or reduces to its primary materiality, celluloid, making it melt away together with the characters as the apocalypse goes on.

REKONSTRUKCIJA V POKRAJINI / RECONSTRUCTIE ÎN PEISAJ / RECONSTRUCTION IN LANDSCAPE

Wanda Mihuleac, RO, 1978, 6'30", bd

Čudovita obsesija filmov Wande Mihuleac ima opraviti z nemožnostjo popolnega odseva: voda, zrcalo, dvojček, nič od naštetege se ne zdi idealni dvojnik originalne podobe, pač pa neodvisna realnost, podobna, a ne enaka – rekonstrukcija. Tako kot mnogi zgodnji filmi Wande Mihuleac tudi ta v komunistični Romuniji ni bil nikoli prikazan.

■ The magnificent obsession of Wanda Mihuleac's cinema has to do with the impossibility of perfect reflection: the water, the mirror, the twin, none of them appear as an ideal double of the original image, but as an independent reality, similar but not alike: a reconstruction. Like many of Mihuleac's early films, this one was never screened in communist Romania.

**SONCE IN NJEGOV DVOJNIK /
SOARELE ȘI DUBLUL SĂU /
THE SUN AND ITS DOUBLE
Mona Vătămanu, Florin Tudor,
RO, 2014, 4' 51", bd**

V filmu podobo sonca spremlja druga podoba, sprva drugačna, potem rahlo podobna, pa spet drugačna itn. Fantastična pokrajina, slikovita, a konkretna, posnetna na 16-mm filmski trak, kar ji daje materialnost, na videz katere digitalni triki niso vplivali, z vso svojo močjo vzbudi imaginarno in poetiko anticipacije, pri čemer hkrati postavlja problem dvojnika – kaj nebesno, najvišje singularno pomeni za kulturo množične reprodukcije?

■ The image of a sun is accompanied by another, at first different, then slightly similar, different again, etc. Shot on 16mm, seemingly untouched by digital tricks, the fantastic landscape, pictorial but concrete, invokes with all its force the imaginary and the poetics of anticipation, at the same time posing the problem of the double: what does the celestial, supreme singular mean for a culture of mass reproduction?

**OBRED ZA ŽEJO ZEMLJE / RITUAL PENTRU SETEA PĂMÂNTU-LUI / RITUAL FOR THE THIRST OF THE EARTH
Mirel Ilieșiu, RO, 1972, 11' 22", bd**

Gre za koreografsko ekstravaganco, osnovano na obredu paparuda, poganskem plesu za dež, ki ga izvajajo mlada vaška dekleta v času suše, in pospremljeno z zelo znano skladbo zbora Madrigal. Toda rezultat je bil videti precej hipijevski, čudno erotičen in bolj poganski, kot bi zgolj umetniška in antropološka zanimanja lahko dovoljevala. Cenzorska prepoved je zato trajala skoraj tri desetletja.

■ *Ritual for the Thirst of the Earth* is a choreographic extravaganza based on the ritual of the paparude – a pagan rain dance performed by young village girls at times of drought – accompanied by a well-known musical composition of the Madrigal Choir. The result, however, was rather hippie-looking, strangely erotic, and more pagan than mere artistic and anthropological interests could have allowed. Hence a censorship ban, almost three decades long.

The Electric Kiss, ki se naslanja na odlomke iz obskurnih znanstvenofantastičnih filmov, si zamisli svet, podoben našemu, v katerem ljudje priklopijo svoje možgane v nekakšno nevroomrežje, ki povezuje vso človeško zavest. Pri tem vznikne določena kvazizgodba: moški z VR naglavnim kompletom, ki je dobesedno in figurativno izgubljen v prostoru, se podvrže skrivnostnemu postopku, da bi omilil slabe učinke te nove tehnologije na um.

■ *The Electric Kiss* imagines a world not unlike our own, in which people plug their brains into a kind of neuro-network that connects the whole of human consciousness. AMÉLIE NILLES OUT OF THE TECHNO-COCOON

Potopitveni performans / **Immersive live performance**

Out of the Techno-Cocoon je velik prihajajoč projekt, ki združuje potopitveni zvočni performans, avdiovizualno instalacijo in knjigo. Prevprašuje razmerje ljudi z vsiljivo tehnologijo na eni strani in manj dostopno naravo na drugi, tako da kontrastira različna prostora poslušanja: prostor metropole in prostor narave.

Koncept tehnikokona je razvil francoski pisatelj Alain Damasio: »Tehnikokon je pomirjujoča sfera, ki nas neguje in nam včasih dene dobro. Tehnikokon nas varuje in ščiti, vendar nas njegova sfera tudi omejuje. [...] Zdi se mi, kot da smo se počasi zabubili v nekakšno ovojnico iz optičnih vlaken in da s svetom komuniciramo v glavnem prek pametnih telefonov, ekranov in prenosnikov.«

Amélie Nilles bo na festivalu V-F-X Ljubljana predstavila prvo verzijo tega projekta. Nastopila bo znotraj večkanalnega ozvočenja, ki simbolizira tehnokokon in bo postavljen posebej za ta performans. Organske tekture, terenski posnetki, vokali in elektronski ritmi se stekajo in ustvarjajo zvočno krajino, ki hrepeni po odsotni naravi znotraj urbanih okolij. Občinstvo je potopljeno v to stalno razvijajoče se okolje in potuje med očarljivimi in temačnejšimi kraji.

Organizacija: SCCA-Ljubljana in Kino Šiška. V sodelovanju s Francoskim inštitutom v Sloveniji.

■ *Out of the Techno-Cocoon* is a large upcoming project that brings together an immersive sound live performance, an audiovisual installation and a book. It questions our relationship as human beings with intrusive technology, on the one hand, and less accessible nature, on the other, by contrasting two distinctly different listening spaces: that of the metropolis and that of nature.

The concept of the “techno-cocoon” has been developed by French writer Alain Damasio: “The techno-cocoon is a comforting sphere that nurtures us and sometimes does us good. The techno-cocoon protects and shelters us, but its sphere also confines us. [...] I feel like we have slowly inserted ourselves into a kind of fibre-optic chrysalis and that we interact with the world mainly through smartphones, screens, and laptops.”

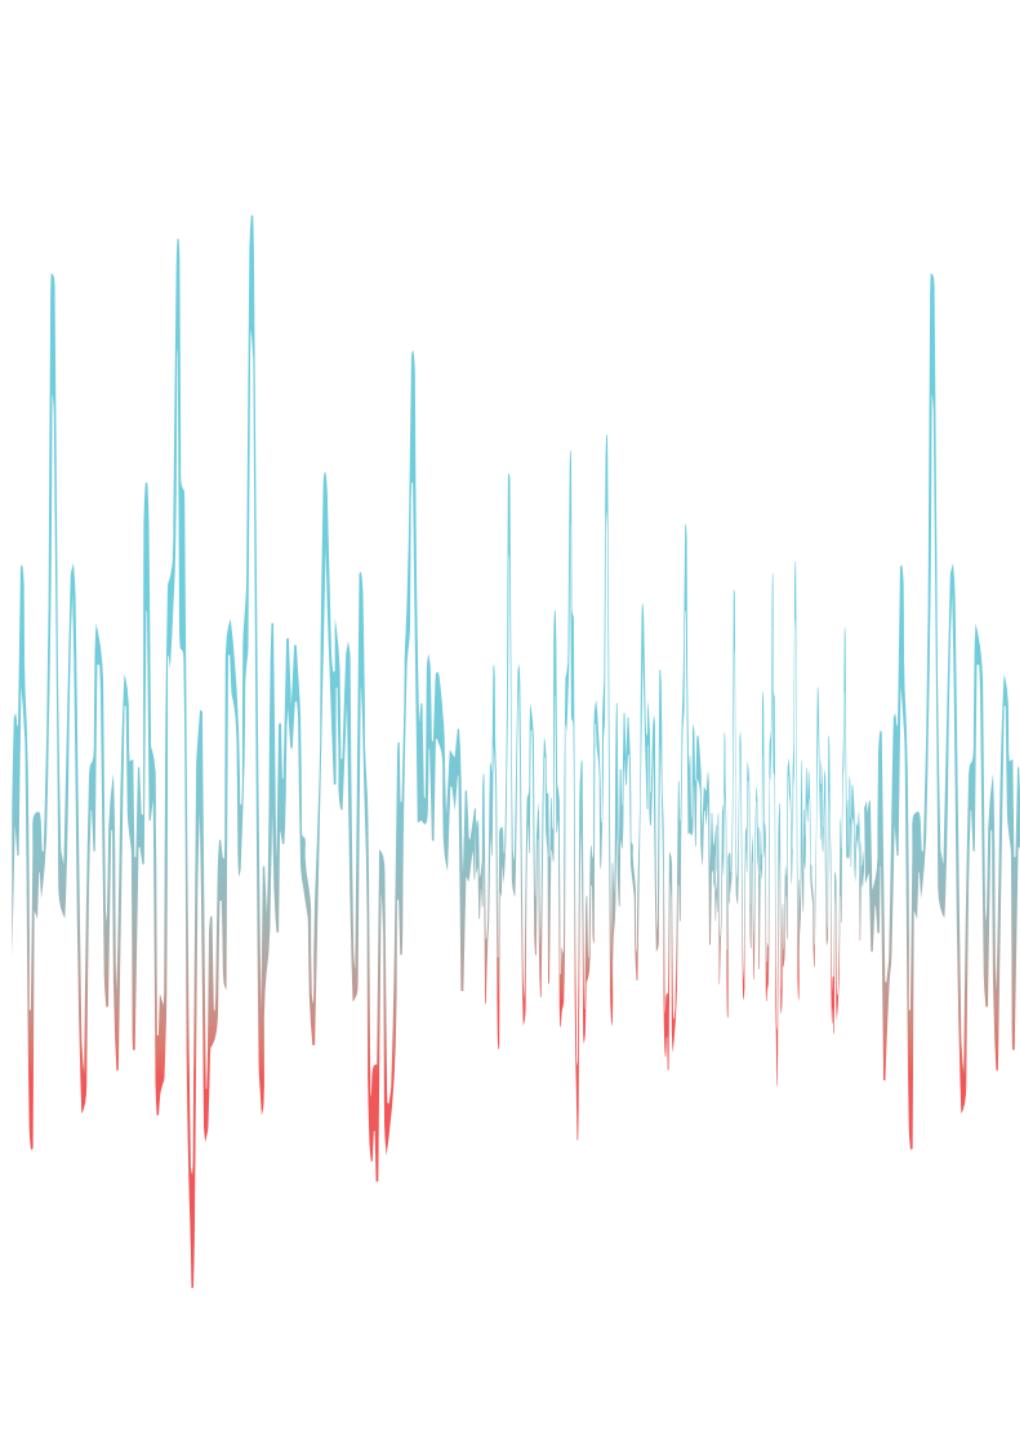

Amelie Nilles presents the first version of her project for V-F-X Ljubljana. She performs within a multichannel speaker system symbolizing the “techno-cocoon”, specially set up for the live performance. Organic textures, field recordings, vocals, and electronic rhythms converge to create a sonic landscape that yearns for the absent nature within urban environments. The audience is immersed within this ever-evolving environment, traversing from enchanting places to darker ones.

Organization: SCCA-Ljubljana and Kino Šiška. In collaboration with the French Institute in Slovenia.

O AVTORICI / ABOUT THE AUTHOR

Amélie Nilles je francoska skladateljica in strokovnjakinja za prostorski zvok iz Pariza, ki črpa navdih iz svojih izkušenj s petjem in bobnjanjem na jazzovskih odrih. Raziskuje eksperimentalna območja in nudi estetski pristop k uprostorjenju v svoji glasbi. Pod vodstvom skladatelja Régisa Renouarda Larivièra je izpopolnjevala svoje veščine skladanja elektroakustične glasbe, hkrati pa je opravljala magistrski študij na Université Paris 8 in se poglabljala v raziskovanje prostorske razsežnosti glasbe. V stalnem procesu ustvarjanja zvočnih okolij izdeluje očarljive zvočne krajine, pri čemer prepleta svoj glas, terenske posnetke, elektronske tekture in organske ritme. Novembra 2021 je izdala svoj prvi singel *A croqué le fruit étrange* pri založbi Planisphère in tako poslušalcem predstavila svoj globoko osebni in eksperimentalni univerzum, ki je tako temačen kot pop. Od takrat je v živo nastopila na različnih prizoriščih po Avstriji, Franciji, Nemčiji in Grčiji ter zasnovala večkanalne zvočne instalacije, pri čemer je sodelovala z različnimi umetnicami_ki. Med temami, ki so ji blizu, je kritika vpletanja tehnologije v vsak vidik našega življenja, ne da bi to ka-darkoli postavili pod vprašaj. Medtem ko pogosto pozabimo, da so ljudje živa bitja med drugimi, Amélie Nilles zagovarja rehumanizacijo družbe v nasprotju s transhumanizmom.

■ **Amelie Nilles** is a French composer and spatial audio expert from Paris, drawing inspiration from her background in singing and drumming on the jazz music scenes. Explorer of experimental realms, she offers an aesthetic approach to spatialisation in her music. Under the guidance of composer Régis Renouard-Larivière, she honed her skills in electroacoustic composition, while simultaneously pursuing her Master's degree at Paris 8 University, delving into research exploring the spatial dimension of music. Constantly in the process of creating sound environments, she crafts captivating soundscapes weaving together her voice, field recordings, electronic textures, and organic rhythms. In November 2021, she unveiled her debut EP, *A croqué le fruit étrange*, with the Planisphère label, introducing listeners to her deeply personal and experimental universe, both dark and pop. Since then, she has performed live at various venues across Austria, France, Germany, and Greece and has designed multichannel sound installations, collaborating with diverse artists along the way. Among the themes dear to her, she challenges the intrusion of technology in every aspect of our lives without us ever questioning it. While we tend to forget that humans are living beings among others, she advocates for a re-humanization of society, in opposition to trans-humanism.
